Budget Contributions

- 1. Moderate deficit budget
- 2. Social budget allocations vs economic budget allocation
- 3. Social investments ---- economically long term sustainable (social investments programmes are sky rocketing both in volumes and values surpassing our revenue capabilities and economic growth rate in terms of revenue derivatives, households subsidies should attract contribution to national food basket, and community development projects.
- 4. Education ---- operational ;;;;; infrastructure development rate////demand side-demand for tertiary education,,,, more going abroad for studies export our revenues.
- 5. SOE's subsidies///urgent need to reform.....soci@enterprises vs economic enterprises
- 6. Mixed ownership of economic enterprises ---partial ownership through shareholding diversification
- 7. Private sector domain---SOE's established----transfer later (yes) sector that are hard for private citizens to enter, especially from the previously disadvantaged
- 8. Multiplications of SOE's ----merge,,,, efficiency and effectiveness (RA, RFA, NATIS) (RCC, August 2016 Constructions)
- 9. Public Procurement --- money retained in our economy vs exported --
 ==impact on our economy, cash reserves, drain our economy instead of

 stimulating/boosting. (directly imports consumables, machinery and processed to the consumable of the consumation of
- 10.Trade mispricing and transfer pricing (leave alone illicit financial flows

Earnings' repatriations by expatriates

misrepresentation of non-availability of skills, & purposely over-Requirement

Math Enterprises
