**HONOURABLE AGNES B. TJONGARERO, MP  
MINISTER OF SPORT, YOUTH AND NATIONAL SERVICE**

**31 MARCH 2023**

**NATIONAL ASSEMBLY**

## **Honourable Chairperson of Whole House Committee**

### **Honourable Members of this august house**

It is my singular honour and privilege to present to this august house the budget of the Ministry of Sport, Youth and National Service for the 2023-2024 Financial Year.

The Ministry of Sport, Youth and National Service caters to the largest single segment of the Namibian population; being the youth and our sports men and women.

The pressure on this Ministry to make tangible interventions to address youth unemployment, impart skills, safeguard the health and wellbeing of the youth, and to provide adequate opportunities and standard facilities in sport is higher now than ever before.

Developing and empowering the youth is a multifaceted and complex endeavor which requires the involvement of stakeholders in all government ministries and the private sector as well as our development partners.

In addressing youth unemployment, the Ministry has mainly focused on those young people who do not meet the entry requirements into tertiary institutions including vocational training centres as well as those who need startup capital to start their own businesses.

Therefore, our employment creation programmes and projects over the years have been focusing on skills development in areas such as tailoring, basic computer skills, agriculture production, civic training & volunteer service.

The Ministry has spent over **Twenty Million Namibia Dollars (N\$20 000 000)** over eight years under the National Youth Credit Scheme to help young people to start businesses.

With that said, we are cognizant of the fact that more still needs to be done. For this reason, the Ministry is engaged in a process to review its youth

empowerment programmes with the aim of re-launching this Credit Scheme in this financial year 2023-2024.

With this new budget, the Ministry aims to re-double its efforts towards making a meaningful contribution towards youth empowerment and sport development.

The Ministry has been allocated a total budget of **FOUR HUNDRED AND SEVENTY-THREE MILLION, TWO HUNDRED AND TWENTY-FOUR THOUSAND NAMIBIAN DOLLARS (N\$473 224 000)** to execute its core mandate of empowering the youth and developing sport.

This budget amount is broken into two components, being operational and development budget.

**Operational** Budget is allocated **FOUR HUNDRED & THREE MILLION, TWO HUNDRED AND TWENTY-FOUR THOUSAND NAMIBIAN DOLLARS (403 224 000)** and **Development** budget received **SEVENTY MILLION NAMIBIAN DOLLARS (N\$ 70 000 000)**.

### **Honourable Chairperson of whole house committee**

#### **Honourable Members**

Let me now go into the four (4) programmes breakdown to highlight where the funds are allocated:

#### **1. PROGRAMME 1: YOUTH DEVELOPMENT**

The objective is to provide youth development and empowerment programmes that will ensure that the youth participate and become active participants in the mainstream economy of the country. Its main operation is to impart skills to school drop-outs and unemployed young people, thereby making them employable, self-reliant and productive citizens.

I am happy to report that the Ministry, despite some challenges, has made significant inroads in the area of youth empowerment. During the year under review the steering committee of the third national youth policy, consisting of representatives from key OMAs as identified in the policy- was officially inaugurated and inducted.

The Ministry implemented the Youth Social Empowerment Programmes in the areas of Sexual Reproductive Health and Rights Gender Based Violence and Comprehensive Sexuality Education in collaboration with our development partners and civil society organizations. In this regard 1472 young people were reached through Sexual Reproductive Health and Rights Gender Based Violence and Comprehensive Sexuality Education services offered by the ministry countrywide.

Together with our development partners such as the UNDP & UNFPA, the Ministry successfully launched the Youth Connekt Namibia Chapter. The Youth Connekt platform brought together about 200 young people from across the fourteen regions. The platform serves as a catalyst for youth innovation, networking and promotion of business development opportunities across the African continent.

The Ministry operates multipurpose youth resources centres across the country and in the financial year which ended (2022-2023), 1646 young people received skills through short courses offered at these centres. The six months skills training in basic technical and commercial trades enrolled about 95 and this figure is set to increase sharply in the new financial year of 2023-2024 as the Khaikanaxab Skills training Centre in Hardap Region is set to enrol trainees in the coming months.

### **Honourable Members**

I am pleased to report to this august house that the Ministry together with the National Youth Service launched the Charcoal Youth Self-Employment Biomass / Charcoal Project in 2022 with an initial cash injection of N\$2 million for operational costs. The project started with 19 beneficiaries who commenced with production at Rietfontein near Grootfontein. The number of beneficiaries will increase progressively as the project generates own revenue from selling its products.

The Ministry further consolidated the support and training of youth in entrepreneurship and business development. This intervention is very important in that it aims to create employment opportunities for young people in their respective localities and regions. Therefore 250 young people were trained on entrepreneurship and soft skills through the UPSHIFT programme with the support of USAID. The project focuses on promoting social innovation and entrepreneurial development for young people in their respective areas.
