NOTICES OF MOTIONS

I. **Hon. Hengari:**

The state of prison cells and holding facilities countrywide calls for an urgent revamp and even a total reconstruction of most of these facilities, as it constitutes a serious violation of human rights. The ongoing problem of overcrowding at over 80 percent of the police cells worsens the prevailing appalling conditions under which trial-awaiting prisoners and accused persons are held.

That this Assembly –

Debate the deplorable conditions in which holding facilities and prison cells are in with the objective of protecting the rights of all human beings to dignity.

II. **Hon. Hamata:**

That this Assembly, discuss the following –

By 2014 the project titled Groundwater Investigations in the north of Namibia could identify and demarcate a vast multi-layered groundwater system, the Ohangwena Groundwater System (OGS), with its main aquifers of Kalahari-Ohangwena (KOH-1 and KOH-2). The OGS is a high yielding aquifer system with an enormous volume of stored potable water. The amount of stored groundwater in the KOH-2 aquifer on the Namibian side is conservatively calculated to 20 billion cubic meters.

As climate change worsens, groundwater stores will become more and more critical to maintain our access not only to safe, drinkable water, but also for agricultural, industrial and other purposes. Consequently, a country (or region) with an abundance of water has the potential to attract investment, create massive jobs, and become self-sufficient in food.

I therefore move that it is of national interest to develop and protect this aquifer against any illegal activities such as drilling and potential pollution.

Further, that this Assembly discusses the potential, protection and sustainable utilization of this massive resource.

III. **Hon. McHenry Venaani:**

That this Assembly –

Discusses the most recent census which indicates that we have 464 839 households, of which 6% are headed by single persons. Typically, we understand a great proportion of these households to be headed by women, with same census report citing that 43.8% of Namibian households are female headed. This supported by trends which indicate that women are generally more likely than their male counterparts to parent and raise their children.

According to a report of the Office of the Judiciary, by 2018 we had 31 104 active maintenance of which 15 097 were default cases. We are also aware that a great proportion of single parents opt

not to pursue child maintenance order. This indicates a skewed socio-economic burden placed on women in caring for children and families. Single parent households generally have lower incomes and are more vulnerable to food insecurity.

I thus further move, that this House explore possible remedies such as subsidized utilities and public transport in order to create better safety nets for single mothers, and alleviate some of the disproportionate socio-economic burden placed on them.

Further, that this motion be referred to the relevant Parliamentary Standing Committee.

IV. **Hon. Swartbooi:**

That this Assembly –

Discusses that the following traditional leaders be recognised and honoured as heroes of the colonial resistance period of the German Reich, of the African people as found in the Kavango, Damara and Nama communities:

1. Hompa Nyangana waMukuve of the VaGciriku, who lived and reigned from the 1840 to 1924 period.
2. Hompa Hiwarwa-Ithete of VaKwangali, who lived and reigned from the 1860 to the early 1903 period.
3. Gaob Kai Xamseb of /Khomanin, who lived and reigned from the 1812 to 1889 period.
4. Captain Amraal Lambert of the Kai-/Khaua, who lived and reigned from the 1814 - 1860 period.
5. Captain Andreas Lambert of the Kai-/Khauan, who lived and reigned from the 1844 - 1894 period.
6. Abraham Morris of the Bontleswarts, who lived and reigned from 1870 –

It is our contention that these heroes be accorded the relevant recognition and inscription in the echelons of Namibia's history for freedom and self-determination.
